CHARLES T. WHITE

**A**FTER three-score years, Lincoln as a crusader for Temperance and Director of the Dry 1855 Campaign in Illinois now is adequately presented. -

¶ This book, by a trustworthy writer, will afford deep satisfaction to every student of American History and friend of Prohibition.

¶ This new Lincoln book, from the pen of one of the most prominent political news writers in the country, presents new and valuable Lincoln history. It puts into enduring form uncollected but material records, the whole making a complete history of Lincoln as an unrelenting foe of the legalized liquor traffic.

¶ Lincoln in 1855 wrote a drastic prohibition law. The text is carried in the Appendix in Mr. White's book.

¶ Lincoln installed and sustained the Rev. James B. Merwin as a temperance worker in the Union Army—an act of faith and works comparable with his vote in the Illinois Legislature against legalized slavery.

¶ Lincoln assisted General L. C. Baker, head of the government Secret Service, in combating the liquor traffic in Washington in 1863 when there were 3,700 drinking places for a population of 75,000.

¶ The subject of General Grant's liquor drinking and the justified confidence of Lincoln in Grant's fidelity are treated by Mr. White with a background of newly discovered data.

¶ All of the valuable new material, much of it overlooked by historians, is supported by photographic facsimiles of the original documents.

¶ In subsequent histories of Lincoln and his period the facts uncovered by Mr. White will take an appropriate place.

¶ A WORD TO THE WISE—First editions of Americana often double in value in ten years. Money put into first editions of really valuable books is well invested.
